PATRIARCH TRAINING MEETING
WITH PRESIDENT VAUN FEATHERSTONE, AREA PRESIDENT
MARCH 22, 1987 - OREM, UTAH

"It is the torch that people follow ere who the bearer may be." -
A quote from the last line of a poem he had memorized concerning
the following of those who are teaching and leading.

Even though we talk about this being the fullness of times, there
are some keys we don't have. For example, the keys to the
functioning of the Aaronic Priesthood in the Temples of the Lord,
or the keys of resurrection. President Kimball told him one time
that if he had these he might have used them.

Nevertheless, all of what we have will lead us closer to the 2nd
coming, including the Aaronic Priesthood which is a holy
priesthood and a grand aid.

Concerning the age for patriarchal blessings, try to give the
blessing before our young people get to the age where they are in
trouble. Give it to them as a fortification against what is to
come against them.

The powers of the patriarch are to call down blessings upon a
people. Since the Stake President is the one who now has the
authority to ordain a patriarch and give this blessing, the S.P.
might also use this power on behalf of his people.

Being Patriarch is a rather lonely job. Invite him to High
Council meeting once and awhile. Invite them to sit on the stand
at meetings.

Patriarchs should be giving 50 to 100 blessings a year.

Thoughts for Patriarchs Read poetry and great books. They help
us to think better. He spoke of Elder Stirling Sill, who can
still quote volumes of poems and sayings he has memorized.
Beautiful things in the blessings will lend great spirit to the
blessing. President Monson says, "Beautiful people always have
beautiful things to say."

Our personal prayers are sincerely repetitious sometimes, but
patriarchs need to pray intently on these special occasions of
giving a blessing.

Patriarchs needs to be patient and loving in their homes. They
have to lead the kind of lives they need to.

Be cautious and protect yourself from evil temptations. Perhaps
the door needs to be open a little when alone with a sister -
avoid physical contact - watch out for those with "wanting" eyes.
